

I support media diversity

I strongly believe that this vote needs to be delayed. If the purpose of the FCC and of their decision process is to establish what is in the best interests of our nation and its citizens, then a delay can do no harm. It will only insure a more thorough look at this issue.

I, personally, support retaining the existing rules on media ownership. But I feel the most strongly that time needs to be allowed for more opinion gathering. If this is truly a democratic nation in practice, not only in name, then this process will be given more time.

Thank you for considering my sentiments,

Kathy O'Brien
